

Gazco Riva Vision large, balanced flue with EchoFlame Black Glass lining & Pebble/Stone fuel bed

RIVA | VISION

Technical Information

RIVA VISION LARGE

The Gazco Riva Vision Balanced Flue Freestanding fire is available with a choice of 3 linings and 3 fuel beds. The high efficiency (81%) Riva Vision has a nominal heat output of 4.85 - 5.20kW. The fire comes with a sequential remote, giving you complete control of the fire, all from the comfort of your sofa. Models to suit Natural Gas or LPG.

RIVA VISION BENCH

For an elegant and stylish 'wide-screen' look, the Gazco Riva Vision Large can also be mounted on a Riva Vision Bench. Raised off the hearth on a sturdily constructed and specially designed bench, the extra height enhances the clear view of the flames and stove.

All flue components are 150mm (6") O.D. Refer to The Fireplace Ltd for full installation and operating instructions.
Please Note: The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used.
