

The logo for Jetmaster Fireplaces Australia is centered at the top. It features the word "Jetmaster" in a large, bold, white serif font, with a stylized orange flame icon integrated into the letter "J". Below it, the words "Fireplaces Australia" are written in a smaller, orange, italicized serif font. The entire logo is enclosed within a thin, orange, oval-shaped border.

Jetmaster

Fireplaces Australia

The background of the advertisement is a photograph of a modern living room. In the foreground, a long, low, dark-colored fireplace unit is built into a wall. The fireplace opening shows a fire burning over a bed of smooth, light-colored stones. To the right of the fireplace, on a dark, reflective surface, are two decorative vases. In the background, a dark blue armchair with a striped cushion is visible. The floor is made of light-colored wood planks.

Reliability | Innovation | Service | Quality

The logo for HORIZON FIREPLACES is located at the bottom center. It consists of the word "HORIZON" in a large, white, sans-serif font. A small orange flame icon is placed inside the letter "O". Below "HORIZON" is the word "FIREPLACES" in a smaller, white, sans-serif font, flanked by two horizontal orange lines.

HORIZON
— FIREPLACES —

Nothing completes your home quite like a Jetmaster fireplace, Australia's market leader in gas fireplaces and wood fireplaces. For over 30 years we have been committed to revolutionising gas fireplaces combining superior heat efficiency and beautiful design.

This is exemplified in the Horizon range that was introduced in 2005. These stunning decorative gas fires symbolise Jetmaster's commitment to offering the best in gas technology.

The Horizon Fireplace is now available with a Heat Zone kit. Turning this beautiful decorative fireplace into an effective and powerful heater.

A defining feature of the Horizon range is the floating burner, hidden controls and stylish slimline design. Plus a high gas input which means more flame, more glow and inviting radiant heat. The range comes in a choice of pebbles, logs or coal, with an amazing range of finishes.

CANTILEVER

The Horizon Cantilever features a low profile design, ensuring a stunning presence in your home.

Horizon fires with their power flue option can be installed into an apartment or home where a vertical flue is impossible to install. The Horizon Cantilever features a low profile design, ensuring a stunning presence in your home. It offers the radiant

glow and ambient warmth of a real fire. Cantilevered off the wall to create a stunning feature, the Cantilever 700 or 1100 logs, coal or pebble with its hidden gas control technology will make the perfect centrepiece fireplace feature.

FEATURES

- Iron bark log pebble or coal effects
- Hi flame contemporary burner
- Design can be modified to suit a range of design applications
- Three sizes available 700, 1100 and 1500
- Provides radiant warmth
- 55mj and 65mj gas input
- Electronic ignition
- Available in NG and LPG

LOW LINE INBUILT

A decorative slimline fire with a floating burner that produces beautiful radiant heat.

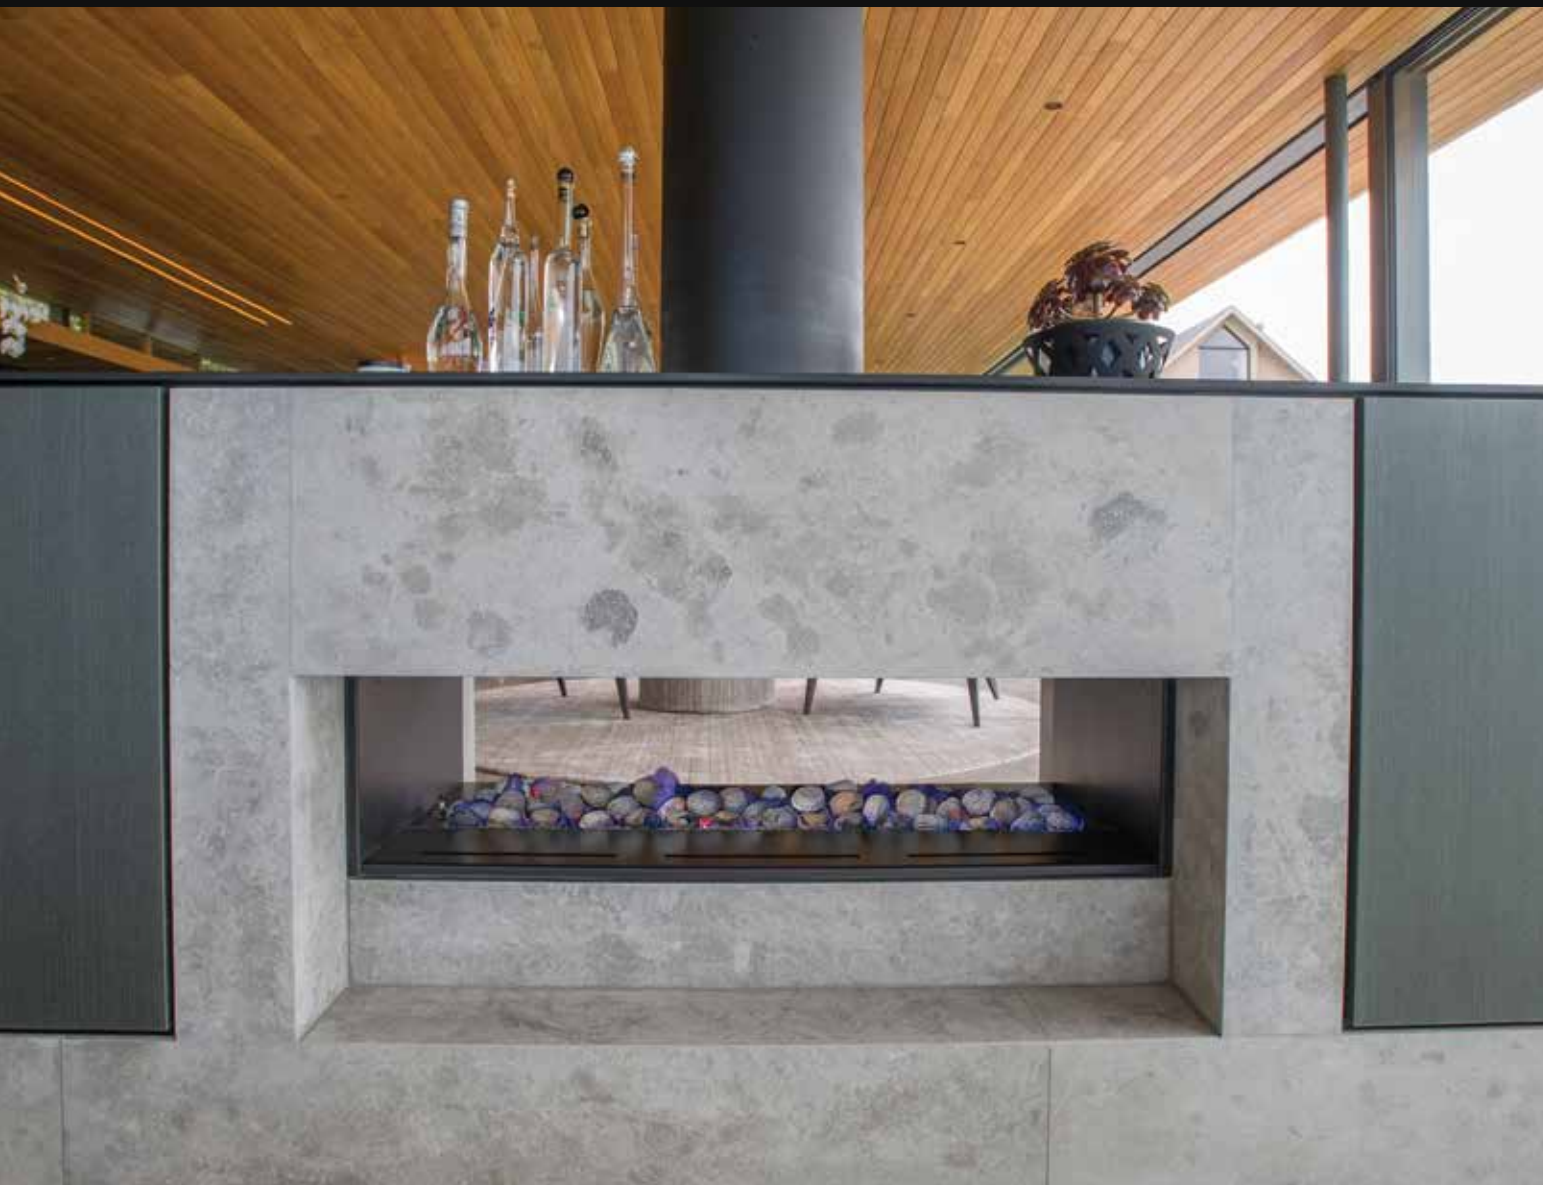

The Horizon Low Line Inbuilt gas fireplace features a floating burner, hidden controls and stylish slimline design. Featuring high gas input which means more flame, more glow and inviting radiant heat. While being a decorative fire it still does produce some radiant heat.

When fitted with the Heat Zone kit the Horizon Fireplace is an effective and powerful heater.

Available with stainless steel, black or painted fascia options and comes in the following sizes - 700, 850, 1100, 1500 and 2000. Select from pebbles, coals or logs.

FEATURES

- Stunning new clean face design option
- Electronic ignition
- Attractive feature in your home
- 55mj gas input for 700 and 850
- 65mj input for 1100,1500
- 72mj input for 2000
- Power flue option
- Available NG and LPG
- Custom sizing available
- Heat Zone kit available
- 100mm glass fender available

LOW LINE DOUBLE SIDED

With its radiant warmth, the double sided divides two rooms while keeping a refreshing open feel.

Enhance the ambiance and warmth of your home with the Horizon Lowline Double Sided open gas fire. Perfect as a stylish room divider with a chimney breast or exposed flue. It features sleek minimalist lines, a floating burner and large viewing area to give your decor an exciting, unique edge.

Primarily a decorative appliance providing radiant warmth,

the double sided fire is also a great way to divide two rooms whilst keeping a refreshing open feel. When fitted with the Heat Zone kit the Horizon Fireplace is an effective and powerful heater.

It comes in five sizes - 700, 850, 1100, 1500 and 2000, and pebbles can be alternated with coals.

FEATURES

- Stunning new clean face design option
- Electronic ignition
- Attractive feature in your home
- 55mj gas input for 700 and 850
- 65mj input for 1100, 1500
- 72mj input for 2000
- Power flue option
- Available NG and LPG
- Custom sizing available
- Heat Zone kit available
- 100mm glass fender available

HORIZON 3 SIDED FIRE

The 3 sided fireplace is a stylish beauty with a flame that appears to float.

The Horizon 3 Sided fire provides for a stunning centrepiece to your room. With all the controls concealed, the high flame gas pebble or coal fire appears to float on the fireplace base.

The Horizon 3 Sided Fireplace is primarily a decorative fireplace but when fitted with the Heat Zone kit the Horizon Fireplace is an effective and powerful heater.

FEATURES

- Realistic looking pebbles or coals
- Radiant heat
- Heat Zone kit available
- Choice of colours
- Offers creative design possibilities
- 2 sizes available 1100 & 1500
- Available in NG and LPG
- Powerflue option
- 65mj of input
- Sealed glass on open end

FREESTANDER 700

With its radiant warmth, the double sided divides two rooms while keeping a refreshing open feel.

The Horizon Freestander is an attractive feature for your home. Its design can be modified to suit and there are a wide variety of creative design applications for this product.

The Freestander features a floating burner inside a

metal base with exposed flue, and it provides beautiful, radiant warmth, able to heat 30 square metres. Its compact size makes it an ideal space saver, perfect for limited spaces or for rooms with large windows and cathedral ceilings.

FEATURES

- Realistic looking pebbles, coals or logs
- Convection and radiant heat
- Choice of colours
- Decorative stainless steel trims also available
- Offers creative design possibilities

HORIZON EDGE

The Edged fireplace is a stylish beauty with a flame that appears to float.

The Horizon Edge provides for a stunning centrepiece to your room. With all the controls concealed, the high flame gas pebble or coal fire appears to float on the fireplace base.

The Horizon 3 Sided Fireplace is primarily a decorative fireplace but when fitted with the Heat Zone kit the Horizon Fireplace is an effective and powerful heater.

FEATURES

- Realistic looking pebbles or coals
- Radiant heat
- Heat Zone kit available
- Choice of colours
- Offers creative design possibilities
- 2 sizes available 1100 & 1500
- Available in NG and LPG
- Powerflue option
- 65mj of input
- Sealed glass on open end
