

Stovax Studio 2 Duplex, Profil frame

Versatile, double-sided, high efficiency wood fire.

Offering the ultimate in versatility, each side of the Studio Duplex can be styled with a completely different frame. From the clean finish of the contemporary Edge to the sparkling Black Glass you can achieve a distinctive look in each room, whilst enjoying the rolling flames from the very same fire.

In terms of performance, the Studio Duplex inbuilt wood burning fire is matched only by its single sided equivalent, offering a highly efficient firebox with an impressive heat output of up to 12kW. The Studio Duplex can additionally benefit from Stovax's optional Sealed Air System that will eliminate almost any draft from within the room.

The Studio Duplex offers flames from a lazy roll to a lively roar. You can adjust your fire to suit your mood.

This fire provides outstanding flame pictures on both sides and superior heating efficiency. The Studio Duplex is for properties 2 Ha or larger and cannot be retrofitted, but is for a new cavity built to spec.
