

STOVAX STUDIO 2 | FREESTANDING

Fire Your Imagination

Indoor Wood | Clean Air Approved

Stovax Studio 2 Freestanding ZCB, 150mm diameter flue & heat shield on optional bench

Optional 250mm diameter triple skinned flue

A modern, stylish high efficiency widescreen wood fire

The Stovax Studio 2 freestanding ZCB fire features the very latest Cleanburn Combustion System, allowing the logs to burn with outstanding efficiency, resulting in more heat delivery into the room and less going up the chimney. This technological advancement is achieved by introducing preheated, secondary air into the firebox to burn the excess hydrocarbons in the smoke.

Expertly designed, the Studio's clean, contemporary lines complement modern interiors. The fire provides outstanding flame pictures and superior heating efficiencies. Designed specifically to meet the stringent air regulations in New Zealand, the Stovax Studio 2 is also available as an inbuilt fire.

The Studio offers you full control of flame aesthetics. From a lazy roll to a lively roar, you can adjust your fire to suit your mood.
