

STOVAX STUDIO 2 | FREESTANDING

Fire Your Imagination

Indoor Wood

Stovax Studio 2 Freestanding on Riva 140 Low Bench

Pure, simplistic form with high efficiency heat.

The Stovax Studio 2 freestanding fire features the very latest Cleanburn Combustion System, allowing the logs to burn with outstanding efficiency, resulting in more heat delivery into the room and less going up the chimney. This technological advancement is achieved by introducing preheated, secondary air into the firebox to burn the excess hydrocarbons in the smoke.

Expertly designed, the Studio's clean, contemporary lines complement modern interiors. The Studio offers you full control of flame aesthetics, from a lazy roll to a lively roar, you can adjust your fire to suit your mood.

This fire provides outstanding flame pictures and superior heating efficiency. The Stovax Studio 2 should only be installed on properties of 2 Ha or more, the Studio 2 is also available as an inbuilt fire.
