

Stovax Studio 3, Black Glass frame

Ultra contemporary styling for modern interiors.

The Stovax Studio 3 Inbuilt fire features the very latest Cleanburn Combustion System, allowing the logs to burn with outstanding efficiency, resulting in more heat delivery into the room and less going up the chimney. This technological advancement is achieved by introducing preheated, secondary air into the firebox to burn the excess hydrocarbons in the smoke.

Expertly designed, the Studio's clean, contemporary lines complement modern interiors. Glass or steel, there is a frame to suit your own personal taste and style. Alternatively the Studio can be fitted with an Edge Kit for a minimalist appearance. This fire provides outstanding flame pictures and superior heating efficiency.

The Stovax Studio offers flames from a lazy roll to a lively roar. You can adjust your fire to suit your mood.

The Stovax Studio 3 should only be installed on properties of 2 Ha or more, the Studio 3 is also available as a freestanding fire.
